Letters From The Rabbit Hole

"FUCK
I DONT WANNADO
THIS ANYMORE."

"My hair's been
styling all day and all I did
was tussel it up some with water
That's touch of god."

"Reiterating on my points from last time
holstein is a harsh mistress harsher than myself,
XXX and XXX combined, so that's pretty
hardcore Now certainly I'm not like OTHER
rabbits, those that wish to oust her completely...
can't we just find even ground someplace? If not
that I say we hold a GG tournament to separate
the wheat from the chaff No? Smash then
XXX's even got the jap release that sly fox."

"I've been reading Kino No Tabi
and I can't figure out what makes it so
appealing It's not so much that I'm in
awe rather, I think it's awfully written
Perhaps it's just the translation but the
stories work more as thought experiments
than actual novel Then again, it is intended
for younger readers which — <XXX at this
point branched off to muse on the nature
of 'universal magnificance' and how to write
a classical children's book>"

"Guys you have GOTZ
to play Endless ocean I've been
going at it for the past week"
"XXX don't you have class?"
"YES"

"No comment."
"Hey, that's a comment and
we're using it! SUCKER."

"holstein is a evil bitch and I hope shit
rains down onto her face and she drinks
the shit rain and dies from shit poisoning"
<two hours later>
"what? naw, holstein's cool"

"wtf styx did roboto?
man it was so gay I though queen did
angways styx sux"

"Where did all the cleaners go?"
"Why would I take off my pants?"
"And this will bring back how many?"
"Eh I'm down with that."

"Alright I'll be serious for once
Palahniuk sucks Yeah, what now, XXX?
Bring it, punk."

"Pop art, such as what
we find in anime 'stylish' things, etc...
they aren't very good Now given XXX's
eager grin, let me say we are not here
to determine the elements of 'art' or
the definition of 'good' I'm just using
those words because people understand
them Please, no more semiotics
<XXX at this point elaborated on his
belief that work that enthralls the youth
lacks the passion and dimensions to leave
a lasting impression>"

"NEW SMASH BROS
LET'S ALL SKIP TO PLAY IT
The reason I say this is because
only XXX has a midterm tomorrow
HA, SUCKS TO BE YOU,
YOU SILLY ASIAN."

"This merely hearsay
and conjecture but I'm under the
impression that the yaoi XXX drew
was directly based off the incident in
which XXX drunkenly masturbated
XXX because he thought XXX was
XXX It's quite evident in on the last
page since the uke's expression is
obviously XXX's."
"What's a uke?"

"stupid funny
and the whole anon thing
Now I can't tell who's talking
smack about who, what with all
these damn XXX's. XXX is an
asshat! See?! That could
be anyone!"

"You mean to tell me that when
XXX told you to take off your bra
because a spider got in it and then
splashed you with water because
'you were on fire', he was lying?
And XXX's so trustworthy!"
"Sarcastic fucking bitch."

"oh thats
nothing, I pissed on
this guy in a wheelchair
once"

"if tiramisu's not
the official cake by tomorrow, I'm
gonna SCREAM"

"In a sense,
holstein's fleecing us. It's like what,
3 bucks for one of those Wendy's
salads? Ok, I know XXX gets them
for free but still Principles, guys,
principles."

"Hey since
we're rabbits and we
hate the rat isn't the next
china year going to be
terrible? That's fucked up."

"This is just me,
but I think we need scanners
who won't join a production of
Les Mis on whim, who won't
charge for their work who —
wait only those two are
scanners, right?"

"soooo is funny dead?"
